

# POINT LOMA SEAFOODS

## Description

Point Loma Seafoods features a wharf cannery design with custom amenities. The two story 12,000 square foot restaurant boasts being the oldest fishmonger in San Diego with the freshest fish in town. The building design orientated the second floor viewing deck to capture the city skyline and harbor views. We are proud of R&R's design-build team that delivered a high profile San Diego Landmark to the city and were able to continue the Christianson's family business.

## Location
